REDEFINING MUSIC ENGAGEMENT IN WEB4

PREMIUM DIGITAL INFRASTRUCTURE FOR ARTISTS, LABELS & MUSIC BRANDS TO OWN, MONETISE & CONNECT — SECURELY & AT SCALE

unyted.online

LEGACY PLATFORMS LIMIT GROWTH.
AUDIENCES ARE EVOLVING.

- Fan attention is fragmented across formats & platforms
- Streaming pays fractions — not futures
- Artists lose ownership & control
- Data is hoarded by platforms, not creators
- Web3-native audiences demand immersive, social, and ethical tech
- Monetisation is scattered — and underleveraged

Unyted

THE UNYTED SOLUTION

Unyted is your gateway to immersive, secure fan ecosystems.

We offer music professionals:

- Fully branded 3D spaces — concerts, hubs, galleries, stores
- Web4-native monetisation: NFTs, tokens, memberships, tickets
- Direct fan access & data ownership
- Secure, EU-compliant infrastructure
- Browser-based, customisable, scalable
